DEPARTMENT OF CIVIL ENGINEERING

Feedback on Curriculum from Faculty
Action Taken Report and Impact Analysis

Academic Year 2023-2024

S.No.	Course Code & Course Title	Suggestions	Analysis & Action taken	Impact Analysis
1	23MC0105 - Constitution of India	It is suggested to add a complete subject on Constitution of India to empower students with the knowledge, skills, and values needed to be active, informed, and responsible citizens.	To be presented in Board of Studies Meeting in June 2024.	A new subject "Constitution of India" is framed as per the suggestions and included in II year syllabus in R23 Curriculum. The above said subject is Accepted and Approved in the Board of Studies Meeting in June 2024.
2	23MC0102 Universal Human Values and Ethics-II	It is suggested to add a complete subject on Human values to enhance the student in Personal development, Social Awareness and Ethical decision making.	To be presented in Board of Studies Meeting in June 2024.	A new subject "Universal human Values -II" is framed as per the suggestions and included in R23 Curriculum II Year. The above said subject is Accepted and Approved in the Board of Studies Meeting in June 2024.

S.No.	Course Code & Course Title	Suggestions	Analysis & Action taken	Impact Analysis
3	CIV 413 B Basics of Earthquake Resistant Design	It is suggested to add a complete subject on Earthquake Resistant Design in curriculum to edify the student skills towards one of the most significant challenges in structural engineering.	To be presented in Board of Studies Meeting in June 2024.	A new subject "Basics of Earthquake Resistant Design" is framed as per the suggestions and included in IV Year R20 Curriculum as a Professional Elective subject. The above said subject is Accepted and Approved in the Board of StudiesMeeting in June 2024.
4	Environmental Engineering - I & II, Geotechnical Engineering – 1, Surveying & Geomatics	It is recommended to revise several theory courses into integrated theory and lab courses to enhance student's understanding and learning abilities.	BoS Coordinator for necessary Action. To be presented in Board of Studies Meeting in June 2024.	The following courses have been revised as integrated courses, incorporating a revised syllabus that includes both theory and lab components. 23CE4113 - Water supply Engineering 23CE4119 - Wastewater Engineering 23CE3103 - Surveying & Geomatics 23CE4116 - Geotechnical Engineering - I Accepted and Approved in the Board of Studies Meeting in June 2024.
5	23MC0104 - Health & Nutrition	It is suggested Include health and nutrition in the syllabus for students as necessary. it enhances their overall well-being while equipping them with knowledge to promote healthy living.	BoS Coordinator for necessary Action. To be presented in Board of Studies Meeting in June 2024.	A new subject "Health & Nutrition" is framed as per the suggestions and included in R23 Curriculum II Year. The above said subject is Accepted and Approved in the Board of Studies Meeting in June 2024.
